FLATFORM

Character drawing kit

Start here: how it works and your color legend

How it works

1. Print every page at 100% on US Letter.
2. Draw on the FRONT page. Other views are a bonus.
3. Fill the color legend below with your colors.
4. Take a flat, well-lit photo of each page.
5. Upload in Flatform. It reads the pages for you.
